THE REASON WHY.

It will surprise most people to learn that the largest stock of Watches, Diamonds, Jewelry, Silverware, Cut Glass and kindred lines in the intermountain country is to be slaughtered just before Easter trade commences and just when most merchants are holding for regular profits, but it has always been our system to give our customers every advantage in price when the demand was greatest. Everyone knows that we are a one price, plain figure house from which there is no variation, but now for a very short period the bars will be dropped and our select stock is offered without reservation at discounts from regular prices ranging from 20 to 50 per cent.

There is a reason for everything and as it is an unusual thing for a large jewelry house like ours to have clearance sales we will state to the inquiring mind that J. H. Leyson & Co., illustrates in this state the "survival of the fittest" among our craft and we might add that "the most fit" in merchandising only survive by adopting modern methods and the Annual Clearance Sale to a jewelry store is strictly modern merchandising and gives us the opportunity to again fill our cases with new and fresh goods bought with cash obtained because of the Clearance Sale. Go look into the cases of any merchant who is afraid to slaughter prices once a year and notice the junk—we don't like junk.
